HOW THE IOWA SUPREME COURT CHANGED EVERYTHING

In one stroke of the pen, unelected judges flipped Iowa from the most pro-life state to among the least.

In *Planned Parenthood v. Reynolds* (2018), the state Supreme Court declared Iowa's Constitution includes a "fundamental right to abortion."

- The Court's decision is **even more radical than *Roe v. Wade***, opening the door to abortion in Iowa at any time, for any reason, right up to birth. Just like New York.
- The decision means **every pro-life law ever passed or that could be passed in Iowa will now likely be declared "unconstitutional."**
- Dissenting judges worry the decision is "a stepping stone" to making taxpayers fund abortion.

No mere law can stop Iowa's rogue court. The surest way to overturn this radical ruling is a state constitutional amendment.

Tell the Court, **"No!** There's nothing in the Constitution that guarantees a right to kill unborn children, and nothing that forces me to pay for it!"
